

Fantasy Baseball Scouting Report: For 5x5 AL only Leagues

What differentiates this new series of books from the books and magazines people have used in the past is that each of the six books focuses on a different league - 5x5 mixed, AL-only, NL-only, 4x4 mixed, AL-only, and NL-only. The projections and dollar values for players can vary up to 50% from league to league. Drafting with the help of a magazine not tailored to your league specifications is a recipe for disaster - yet millions of people do so every year. With your Fantasy Scouting Report in hand, you can rest assured that your projections are accurate. Each book also has special Quick Lists designed to help you find what you need in the limited time you have between picks. Players are ranked by actual scoring category points so you can compare players intelligently and quickly. Categories like ERA, WHIP, and BA are weighted for IP and AB, vitally important but often overlooked. Also included is a unique quantitative analysis of the best prospects for 2005.
