

The Life and Times of Franz Joseph Haydn (Musicmakers: Worlds Greatest Composers) (Masters of Music)

Franz Joseph Haydn's importance in the history of music is so great, that it would be difficult to summarize his achievements in a few paragraphs. He inherited the sonata form from Bach and made it into a great form of musical expression. He established the symphony, preparing the way for Mozart and Beethoven. He is often called the father of the string quartet. In fact, Mozart commented that it was from Haydn that he learned how to compose for four stringed instruments. Haydn possessed a sunny disposition and a lovable nature. He was extremely generous and had a warm heart. He is quoted as saying, "Anybody can see by the look of me that I am a good-natured sort of fellow." Much of his good nature can be heard in his music which lives on nearly 200 years after his death in 1809. This is the story of Franz Joseph Haydn, who was born in Rohrau, Austria to peasant folk. Though the feudalistic times in which he lived would not have allowed him to rise to the aristocracy, he is what brought much acclaim to the Esterhazy royal family of Hungary. In this book written especially for young adults, readers will be taken back in time for a delightful musical journey.
