

The Good Web Site Guide 2002: A-Z of the Best 1000 Web Sites for All the Family

This book works on the premise that most people don't particularly enjoy surfing the internet, because it's slow, they don't know what to look for, haven't got the time, or simply have no recommended starting-point. The sites in this book are general, but chosen for their skill in linking with other more specific sites. The best is judged in terms of content, ease of use, and value for money and service.
