

The LAX Trip

For the first time in e-book format the first book by Daniel W. Sheehan. The LAX Trip is a fast paced book that takes the reader on a journey of growth and adventure set in Ireland. Follow the excitement as the main character, Wayan Daniels departs on quest to bring the game of Lacrosse to the Irish isles. Little does he know that his life is about to change for ever, as he becomes embroiled in the centuries old conflict between Catholics and Protestants in Ireland. Will he ever make it home?- An excellent and exciting novel. The suspense filled beginning kept me hooked from the start and I could not put this one down. If you like Dan Brown and Jonathan Kellerman, you will absolutley love this first novel of up and coming star Daniel Sheehan!
