

## The Final Journey

Alice is eleven years old, and it is wartime. She is on a train with no seats, no lights, no sanitary facilities. Her parents and her grandmother are missing, and Alice doesn't know where she is going. Maybe she will get to play outside again, maybe she will see her parents. But as the train rolls on, Alice begins to realize that just when you think things can't possibly get any worse, they do. No reader will be immune to the plight of these people, powerless in the face of overwhelming evil.-- Kirkus Reviews
